RESOLUTIONS

The following resolutions were offered:

By Senator Teale:

Senate Resolution No. 152

Relating to the International Frog Jumping Olympics

WHEREAS, In these harried times it is seldom that we pause to solemnly contemplate the truly glorious contribution made to this Nation's greatness during the early days of the West by the mining areas of California; and

WHEREAS, Advantage should be taken of every opportunity to recall that historic era which shaped not only the history of this Nation but of the entire world by pouring a golden stream of wealth into this infant Nation's economy when it was most sorely needed; and

WHEREAS, Although there are many areas in California which played a major part in this epic period there are few which gained the world-wide eminence achieved by Calaveras County as a result of the glowing chronicles of the immortal Mark Twain; and

WHEREAS, The community of Angels Camp in the heart of Calaveras County has for many years labored incessantly to perpetuate the true glory of the old West and particularly Calaveras frogs by annually celebrating the anniversary of the Frog Jumping Contest of Calaveras County and on May 18, 19, and 20, 1956, will host the International Frog Jumping Olympics; and

WHEREAS, The International Frog Jumping Olympics, even though proposed in somewhat more jocular vein than other Olympic gatherings, will nevertheless afford a most welcome opportunity for the representatives of other nations to savor the real glory and warm hospitality of the old West as it survives in today's modern California and also will be a time for all loyal Californians to celebrate their State's glorious past in a most traditional manner; now, therefore, be it

Resolved by the Senate of the State of California, That the Governor of California is respectfully requested to declare the week of May 18, 1956, as "International Frog Jumping Week" in recognition of the significance of this convocation of amphibia; and be it further

Resolved, That the members of this body express their sincere good wishes for a most successful International Frog Jumping Olympics; and be it further

Resolved, That the Secretary of the Senate is directed to transmit suitably prepared copies of this resolution to the Honorable Goodwin J. Knight, Governor of the State of California; to the Board of Supervisors of Calaveras County, the city council of Angels Camp, and to the Board of Directors of the Calaveras County Fair.

Senate Resolution No. 153

Relative to the creation of the Senate Interim Committee on Parking

WHEREAS, As a result of the unprecedented increase in our population and the extensive use of the automobile by the people there have been created many private and public parking problems of major importance to our State; and

WHEREAS, The future development of our State industrially, commercially and residentially demands an orderly solution of these parking problems; and

WHEREAS, The problems arising from the parking needs of our State are no longer local in nature but state-wide in interest and affect our tremendous development and population growth; and

WHEREAS, The parking problems do not only exist in our downtown area but also in the suburban area and thereby affect the entire economy of the State; and

WHEREAS, The present state laws dealing with parking, parking facilities and parking districts have been amended piecemeal, creating many problems of extreme complexity; and

WHEREAS, A careful and thorough study should be made of our State District Parking Laws so that they may be integrated and improved to meet modern needs; now, therefore, be it

Resolved by the Senate of the State of California, As follows:

1. SEC. 2. Section 5055.3 is added to said code, to read:

5055.3. If requested by the district to which an apportionment has been made pursuant to this chapter, the Director of Finance shall determine and certify to the Controller for inclusion in the "second computation" the following amounts not otherwise included in the second computation:

(a) The amount raised and to be raised during the current fiscal year for repayment of principal and interest on that portion of the bonded indebtedness of the district that was incurred for each such grade level subsequent to the making of the first apportionment to said district under the provisions of this chapter to the extent that the proceeds of such bonds have been expended for "eligible costs" as defined in this subdivision.

"Eligible costs" means the total cost of a project which meets the requirements of Chapter 19 of this division if the total cost of the project did not exceed 95 percent of the total cost of similar projects in the area in which the project was constructed by the application of the construction cost standards established pursuant to Section 7713. If the total cost of the project exceeds 95 percent of such construction costs, then the excess of the costs shall be disregarded. For purposes of computing "eligible costs" the cost of multipurpose rooms designed for two or more of the purposes specified in Section 7707 and the cost of administrative offices of school building shall be included to the extent authorized by regulation of the board. The determination of the total amount of costs to be included in "eligible costs" shall be made by the Department of Education and the Department of Finance in accordance with the jurisdiction which each department has in the administration of Chapter 19 of this division. The findings of the departments shall be subject to review by the board, whose decision shall be final. "Eligible costs" shall not include any of the following:

(1) Costs in excess of current construction cost standards established pursuant to Section 7713.

(2) Expenditures in connection with construction projects not completed and for which the final costs are not determined prior to December 1st of any fiscal year.

(b) The sum of one thousand five hundred dollars ($1,500) for each classroom constructed in the district for which the final costs have not been determined by the board prior to December 1st of any fiscal year. If the construction project is not wholly financed by district bond funds, the amount for each classroom shall be prorated according to the proportion of district bond funds applied and to be applied to the cost of such construction. The provision of this subdivision shall terminate on the ninety-first day after adjournment of the 1957 Regular Session of the Legislature.

(c) The amount included in the second computation under subdivision (b) of this section shall be a preliminary amount and subject to adjustment in the manner herein prescribed. After the determination of the final cost of a project by the board for which a "preliminary amount" has been allowed for inclusion in the second computation and the bond debt service for such project is included in such computation for the first time under subdivision (a) of this section, the preliminary amount shall be recomputed in accordance with the provisions of subdivision (a) and the difference shall be added to or subtracted from, as the case may require, the amount included in the second computation for such year.

(d) Whenever the Director of Finance determines and certifies to the Controller amounts for inclusion in the "second computation" pursuant to this section, the "first computation" shall be the amount that would be produced by a tax of thirty-five cents ($0.35), in lieu of the tax prescribed by Section 5054, on each one hundred dollars ($100) of assessed valuation for the current fiscal year within the district and the "third computation" shall be the amount of the "second computation" which is not in excess of an amount which would be produced by a tax of fifteen cents ($0.15) on each one hundred dollars ($100) of such assessed valuation in the district.

(e) The board shall establish such procedures and policies and adopt such rules and regulations, not inconsistent with the provisions of this section, as it may deem necessary or convenient to carry out the purposes of this section."

7713.1. At the time the board considers an application by a district for an apportionment it shall review the purposes for which the district has expended or encumbered bond proceeds within two years immediately preceding the date of filing the application for aid under this chapter. If the board determines that the district

has expended or encumbered any of such proceeds for purposes which it considers to be outside of the scope and intent of this chapter, it may provide that the district shall contribute, or obtain and contribute, toward the cost of the project applied for, an amount equal to that so expended, as a condition of receiving the proceeds from an apportionment."

Senate Resolution No. 139

Requesting the Department of Public Works to make a further survey for a state highway between the Cities of Patterson and San Jose

WHEREAS, Senate Resolution No. 14 of the 1954 First Extraordinary Session requested the Department of Public Works to make a preliminary survey for a state highway between the cities of Patterson and San Jose; and

WHEREAS, The department, pursuant to said resolution, made a survey for such a highway which would be laid out so as to go around the base of Mt. Hamilton on the south side of said mountain and determined that due to the high cost of construction and the heavy grades which would be necessary on said route, thereby making the route unattractive for use by trucks, the construction of a new state highway along said route would receive a very low priority; and

WHEREAS, It is felt that a further survey in connection with such a highway, exploring the possibility of constructing the highway along the base of Mt. Hamilton on the north side of said mountain, might disclose that a highway could be constructed along such route at a lower cost and with less grades than a highway around the south side of Mt. Hamilton; and

WHEREAS, The construction of such highway between the Cities of Patterson and San Jose will be very conducive to the increase of manufacturing activity and recreational activities in the area involved, and will also provide another important escape route from the heavily populated peninsula below San Francisco in case of atomic attack; and

WHEREAS, There is at the present time no direct route between the Cities of Patterson and San Jose, except by way of county-maintained roads through Del Puerto Canyon, which route, by admission of the Department of Public Works in its report to the Legislature on the feasibility of construction of a state highway around the southern base of Mt. Hamilton, is seriously deficient in practically every way; now, therefore, be it

Resolved by the Senate of the State of California, That the Department of Public Works be requested to undertake such further surveys as are necessary to determine the advisability of the construction of a new state highway between the Cities of Patterson and San Jose, such highway to be laid out so as to go around the base of Mt. Hamilton on the north side of said mountain, and to report to the Legislature the results of such surveys as soon as possible and not later than the beginning of the 1957 Regular Session of the Legislature; and be it further

Resolved, That the Secretary of the Senate be directed to transmit a copy of this resolution to the Honorable Frank B. Durkee, Director of Public Works.

Resolution read, and adopted on motion of Senator Donnelly.

COMMUNICATIONS

The following communication was received and read, and ordered printed in the Journal:

SENATE, CALIFORNIA LEGISLATURE
June 2, 1955

Hon. Hugh Burns
Acting Chairman
Committee on Rules

DEAR SIR: This is to certify that I have received 35 copies of the following petition signed by Frances Kimball, 984 Albion Avenue, Woodside, San Mateo, and 262 other signers from all parts of the State of California.

Very truly yours,

J. A. BEEK
Secretary of the Senate

To the Senate of the State of California

We, the undersigned, sovereign citizens of the State of California, believe:

1. That our Public School System is an accepted part of the American way of life;
2. That the majority of the members of the teaching profession are loyal and conscientious individuals;
3. That generally the control of education rests in the hands of those who are endeavoring to provide good education for the children of California;

4. That our schools should teach morality, love of Country, and the traditions of our forefathers, as well as the basic fundamentals of knowledge;
5. That teaching materials and philosophies contrary to these principles have found their way into the California educational process;
6. That this matter is of deep concern to us;
7. The California Senate Investigating Committee on Education is widely held in high esteem and we have full confidence in the members of this committee.
8. That this committee is competent to investigate the matters which are of concern to us.

Now, therefore, we petition this body to appropriate sufficient funds to the Senate Investigating Committee on Education to conduct an extensive investigation covering the following subjects:

1. Textbooks and teaching materials, including films, supplemental books and periodicals, TV and recordings, which contain objectionable material and/or are authored by or refer the student to, authors with questionable affiliations.
2. Whether teachers' organizations on a local, state and national level have improperly combined with or dominated such "lay" organizations as the Parent-Teachers Association, the American Association of University Women, the League of Women Voters and others, and whether such domination has been contrary to the public interest by unduly creating pressure groups to influence school matters.
3. Influence of tax-free foundations or organizations supported by them, such as the National Citizens Commission for the Public Schools and the Rosenberg Foundation and whether such influences are contrary to the public interest.
4. The "survey" recently completed by the California Association of Elementary School Administrators, financed by the Rosenberg Foundation, including how much time of public school employees and supervisors was devoted to this study, why the school boards were not consulted, how the "public members" were selected, and whether the National Citizens Commission for the Public Schools was involved.
5. The cause of attacks upon persons presenting complaints to school boards and why such complaints are frequently disregarded.
6. The part taken in the Rosenberg financed "survey" by County Superintendents and other activities of those Superintendents and the extent public funds are used for publications issued by them.
7. The activities and interference of the State Department of Education in local district affairs, including unification, and whether there is any collusion between that department, teachers' organizations, and the "lay" groups mentioned above.
8. Such other related matters as may concern the public interest.

In order to carry out the objectives of this petition we further request that there be provided necessary safeguards to insure that such investigations will not be thwarted by organized pressure groups and the organizations being investigated.

Senate Resolution No. 156

Relative to the creation of the Senate Interim Committee on Child Welfare

WHEREAS, The care, education and welfare of the children of this State who are receiving and entitled to receive aid through programs administered by the State Department of Social Welfare and the county welfare agencies, is a matter of vital importance to the State and to the counties, and large amounts of state and county moneys have been expended and increasing each year; and

WHEREAS, Juvenile delinquency and juvenile crime, in this State is increasing each year as shown in reports and statistics points to the need for a state program that will result in juvenile delinquency prevention. The California Youth Authority facilities for correction and rehabilitation are now taxed to capacity notwithstanding the increasing expenses for additional facilities and operation during the past five years; and

WHEREAS, The county juvenile camp program for wards of the juvenile courts with its proven successful and economical operations should be further studied for counties lacking such a facility; and

WHEREAS, There now exist conditions with reference to the administration of the various child welfare programs that are believed to be duplicated, overlapping, and not carried out in uniform manner throughout the State, resulting in double expense and general decrease in efficiency; and

WHEREAS, The problem of caring for children under the various county and state programs has greatly increased and study should be made for aid and assistance in the child welfare problem; and

WHEREAS, Additional sums of money are expended for the care of unfortunate, dependent and homeless nondelinquent children, who have become wards of the juvenile court and have been referred to the county probation departments, and also for the care of those children who are charged with more serious offenses requiring they be remanded to the care of the Youth Authority; and

WHEREAS, Further study should be made of the problem of temporary and permanent placement of the unfortunate, dependent and homeless nondelinquent children of the older age group, who are not acceptable in the average foster home, and further study has been referred by the Senate Finance Committee to the Rules Committee as contained by Senate Bill No. 504 in this the 1955 Session of the Legislature of some state program for the care and supervision of the homeless, abandoned, and neglected children in this older age category; and

The following resolutions were offered:

By Senator Regan:

Senate Resolution No. 159

Relating to the continuance of the Senate Interim Committee on Public Lands

WHEREAS, Ownership of approximately one-half of the total land area in California is vested in the Federal Government and constitutes a handicap to the management and development of the natural resources of this State in the interest of the people of this State and is a specific limitation of the sovereign powers of the State of California; and

WHEREAS, Federal ownership of land in California increased from 39,316,908 acres in 1937 to approximately 47,000,000 acres in 1952, an increased of approximately 20 percent of federally owned land in 15 years; and

WHEREAS, The problems presented by the ownership of public lands by the Federal Government are common to all of the western states, only two states having a larger area of land in federal ownership than California; and

WHEREAS, Land in ever-increasing acreage is owned and is being acquired by the agencies of the State of California; and

WHEREAS, Such publicly owned property in most instances is not subject to taxation by the taxing agencies of local government and results in the imposition of an excessive and inequitable tax burden being imposed on local taxpayers in such local governmental subdivisions, and creates critical problems for the administrative and legislative bodies thereof; and

WHEREAS, Neither the State nor local governments have available to their legislative bodies sufficient basic data relative to the exact amount of publicly owned acreages and uses thereof adequate for legislative consideration and action in the endeavor to find and effect a solution to the multiple problems created thereby; and

WHEREAS, It is essential that the Legislature be fully informed on all phases of the public lands issue in order to enable it to take appropriate action; now, therefore, be it

Resolved by the Senate of the State of California, As follows:

SACRAMENTO, January 13, 1955

Mr. Ford Chatters
President, State Personnel Board
P. O. Box 307
Lindsay, California

DEAR MR. CHATTERS: In the last two annual reports of the Personnel Board to the Governor and the Legislature, the board expressed concern that the general increases in salaries of civil service employees in recent years has narrowed the difference between the salaries of department heads and their immediate civil service subordinates such that the salary differential did not adequately reflect the differences in responsibilities.

The report recently prepared for the Assembly Interim Committee on Civil Service and State Personnel by John Fisher, T. H. Mugford, and myself contained data with reference to this problem indicating that California had arrived at a point of serious compaction which arises out of the relationship between statutory salaries established by the Legislature and civil service subordinates set by the State Personnel Board. This study indicated that the enactment of statutory salaries as recommended in this report would establish differentials between statutory positions and top subordinates more nearly in line with differentials in private industry and other governmental agencies.

The report prepared for the Assembly interim committee did not have the official approval of the State Personnel Board but is interpreted to be the recommendation of Mr. Fisher as the official designated by the State Personnel Board to assist in the preparation of such a report.

In view of the position taken by the State Personnel Board concerning the matter of compaction and the fact that the report to the Assembly interim committee arrives at conclusions which, if adopted, would establish specific differentials as indicated in Table 20 of that report, I would appreciate securing from the Personnel Board a statement as to whether or not it considers the differentials indicated in Table 20 to be generally in line with the thinking of the board. If this is not in accordance with the board's thinking, I would appreciate knowing what the nature of the differentials should be.

It is not intended that this should at this time be a statement committing the board to the differential to be established between any particular agency or statutory position and his subordinate. My interest is in securing from the board a statement of policy as to the differential which should apply generally, recognizing that there may be justification for variations among the several agencies.

Inasmuch as bills have been introduced on this subject in the 1955 Session, an early reply would be sincerely appreciated.

Sincerely yours,

A. ALAN POST

CALIFORNIA STATE PERSONNEL BOARD
February 24, 1955

Mr. A. Alan Post
Legislative Auditor
Legislative Budget Committee
306 State Capitol
Sacramento, California

DEAR MR. POST: This is in reply to your letter of January 13, 1955, in which you ask the opinion of the members of the State Personnel Board as to appropriate salary differentials between department heads and their immediate civil service subordinates. The viewpoint of the board on this question is in essence as follows:

The fundamental concern and responsibility of the board with respect to the salaries of civil service employees is to establish salary ranges that comply with Section 18850 of the Government Code which requires it to recognize the principle of like salaries for like work and to give consideration to rates prevailing in private industry and other governments. The Personnel Board believes the Legislature should establish salaries for department heads at levels that are sufficiently high to enable the board to carry out its responsibility for setting civil service salaries that comply with the above mentioned standards.

The salaries recommended by the Assembly Interim Committee on Civil Service and State Personnel generally are sufficient to permit the setting of civil service salaries in accordance with the standards set forth in the law. They do not, however, equal the salaries that are paid in private industry for positions of comparable responsibilities. Whether they should or not is a policy matter for legislative determination.

Very truly yours,

FORD A. CHATTERS
President

MOTION TO RE-REFER ASSEMBLY BILL NO. 3678

Senator Robert I. McCarthy moved that Assembly Bill No. 3678 be re-referred to Committee on Fish and Game.

On page 1, strike out line 1, and insert

"SECTION 1. Section 1526 of the Welfare and Institutions Code is amended to read:".

1526. Except as provided in Sections 1512 and 1557, and subdivision (d) of this section, no county is required to pay aid under this chapter for a child, or shall be charged under Section 1512 for aid paid for a child, unless the child has had residence in that county for the period of one year immediately preceding the date of application.

For the purposes of this chapter, the county residence of the child shall not be lost until another is gained, and shall be determined in accordance with the following rules:

(a) The residence of the father determines that of the child during the lifetime of the father, unless the father has abandoned the child, has been legally deprived of his

custody, or is in fact living separate and apart from the mother of the child; in the latter case the residence of the child is determined by the residence of the parent who has his custody.

(b) If the child's residence is not determined under subdivision (a) hereof, then the residence of the mother determines that of the child during the lifetime of the mother, unless the mother has abandoned the child or has been legally deprived of his custody. The residence of the husband shall not be deemed the residence of the wife if they are living separate and apart and in such case each may have a separate residence dependent upon proof of the fact and not upon legal presumptions. The residence of the parent having custody of the child determines his residence.

(c) If the residence of the child is not determined under subdivisions (a) and (b) hereof, then the residence of any individual who has been appointed legal guardian determines the residence of the child; if the child is a ward of the juvenile court, the county in which the court is located shall be considered the residence of the child.

(d) The residence of a foundling shall be deemed to be that of the county in which the child is found, without the necessity of a year's presence in the county.

(e) If the residence of the child is not determined under subdivisions (a), (b), (c), or (d) hereof, and the child has been placed in an institution or boarding home by a public agency, the county in which the child has residence at the time of such placement shall be considered the residence of the child until his residence can be determined under subdivisions (a), (b), or (c) of this section.

(f) If the residence of the child is not determined under (a), (b), (c), (d), or (e) hereof, the county in which the child is living shall be deemed the county of residence, if and when the child has had a physical presence in the county for one year. The county may accept an application in the case of a child living with a relative who does not have legal custody or the county, itself, shall file an application for aid on behalf of the child and also be responsible for whatever may be its share of the child's support. This subdivision does not apply to a child for whom an application is made under Section 1557.

(g) If a person having legal custody of a child is committed by one county to a state mental institution located in another county, and either remains in such institution or is placed in a private home for family care, the residence of the child shall be determined as of the date of the commitment, and the county in which the mental institution is located shall not become liable for the support of the child of the person so committed unless the child establishes physical residence in such county."

Under the existing law the state school building bonds must be sold and the proceeds thereof available before the State Allocation Board can make a final apportionment of such proceeds to the school districts even though the full amount of such apportionment will be actually disbursed to the district over a period of time. Such a method is unnecessarily wasteful of state General Fund money in that it costs the State, in the interest payments on the state bonds, several million dollars a year. Under this act the apportionments would be made payable out of the proceeds of the state bonds when they are sold, and bonds will be sold when needed for disbursement to the school districts, thus avoiding the holding in the State Treasury of funds earmarked for particular school districts but not yet needed by the districts under their building schedule. In order that this savings of state funds may be made as soon as possible it is essential that this act take effect immediately."

RESOLUTIONS

The following resolutions were offered:

By Senator Gibson:

Senate Resolution No. 164

Relative to a survey of the Pleasants Valley Road as a possible state highway

WHEREAS, The United States Bureau of Reclamation is constructing the Monticello Dam as a part of the Solano Project on Putah Creek at the junction point of the boundary of Solano, Yolo and Napa Counties; and

WHEREAS, The construction of this project in itself will require a period of four years and will create demands for traffic to the dam site; and

WHEREAS, On completion of the project a reservoir will be created behind the dam and a smaller lake and reservoir behind a diversion dam on the stream below the main structure; and

WHEREAS, These reservoirs will create an opportunity for recreational development, in turn giving impetus to the normal traffic pattern on the roads leading to these reservoirs; and

WHEREAS, The Division of Beaches and Parks, Department of Natural Resources, in the five-year program of the California State Park System approved by the State Park Commission, in 1954 proposed the development of a state park at the Monticello Reservoir; and

WHEREAS, The most direct route from the San Francisco Bay area to these recreational facilities thus created, as well as to the water storage facilities created by the Monticello Reservoir, is the so-called Pleasants Valley Road, being a combination of county roads 67, 184 and 293 of Solano County and extending for a distance of 13.7 miles from State Highway Route 7 to State Highway Route 6, and

WHEREAS, This road constitutes a reduction of 7.2 miles in the distance which must be traveled on existing state highways from the San Francisco Bay area to the Monticello Reservoir site, and such saving can be increased by the improvement of such Pleasants Valley Road; and

WHEREAS, The Pleasants Valley Road constitutes a more scenic route from the San Francisco Bay area to the Monticello Reservoir site than that now afforded by existing state highways; now, therefore, be it

Resolved by the Senate of the State of California, That the Division of Highways, Department of Public Works, is requested to survey potential demands for use of the Pleasants Valley Road as a route from the San Francisco Bay area to the Monticello Reservoir site, and especially to ascertain whether in consideration of the potential traffic factor and other pertinent factors the Pleasants Valley Road would qualify under criteria for inclusion in the State Highway System; and, be it further

Resolved, That the Division of Highways is requested to report its findings to the Senate not later than the tenth day of the 1957 Regular Session of the Legislature; and be it further

Resolved, That the Secretary of the Senate is directed to transmit a copy of this resolution to the Honorable Frank B. Durkee, Director of Public Works.

Resolution read, and referred to Committee on Rules.

By Senators Dorsey, Miller, Gibson, Cobey, Erhart, Harold T. Johnson, Teale, Short, Cunningham, Berry, Regan, Way, Montgomery, John F. McCarthy, Sutton, Richards, Farr, Coombs, and Robert I. McCarthy:

Relative to the official staff of the Senate

WHEREAS, The 1955 Session of the California Legislature has been characterized by a greater volume of legislation than any session which has ever been held; and

WHEREAS, The painstaking labor entailed in the preparation, study, amendment and enrollment of the unprecedented number of bills introduced has placed a heavy burden of work not alone upon the Members of the Senate, but upon the official staff as well; and

WHEREAS, The Senate desk has been staffed by a group of highly competent, efficient and devoted individuals with the result that the necessary detailed work involved in the enactment of legislation has been conducted efficiently and with a minimum of confusion and delay; now, therefore, be it

Resolved, That the Senate of the State of California appreciates the high quality of service it has received, and particularly thanks each individual for the efficient service he has rendered in his special capacity; and be it further

Senate Resolution No. 172

Relative to the Legislative Auditor

WHEREAS, The Legislature of the State of California acting through its Legislative Budget Committee, has created the post of Legislative Auditor to ascertain facts and make recommendations concerning the State Budget, revenues and expenditures of the State, and the organization and functions of the State, its departments, subdivisions and agencies; and

WHEREAS, Said Legislative Auditor has performed this function in an efficient manner, providing information and recommendations which have been of inestimable assistance to the Legislature; and

WHEREAS, The Legislative Auditor has willingly and with the utmost diligence and courtesy responded to requests for data from the Legislature, its committees and its individual members; and

WHEREAS, The Legislative Auditor has in the past released to the press and public information concerning or contained in his budget analysis prior to its submission to a standing legislative committee; and

WHEREAS, This material, so released by the Legislative Auditor, has in many instances been critical of departmental operation, or has cast doubt upon the desirability of providing certain services by agencies or institutions, and has advocated or opposed the abolishment or adoption of certain policies by the State; and

WHEREAS, The recommendations and policy statements of the Legislative Auditor are primarily made and considered on the basis of financial considerations, apparently not giving due regard and consideration to other very important factors which the Legislature also considers when determining what the policy of the State will be regarding the public health, safety and general welfare; and

WHEREAS, The public tends to, and has been led to, believe that such recommendations, findings, and other matters are policy statements of the Legislature itself, when in fact they are not; and

WHEREAS, Because the Legislature has frequently rejected such recommendations of the Legislative Auditor, there has been a tendency by certain parts of the public to be severely critical of the Legislature because it has not acted in accordance with such policy recommendations; and

WHEREAS, Since the Legislature itself is the responsible body for the determination of state public policy, this practice by the Legislative Auditor should be discontinued; now, therefore, be it

Resolved by the Senate of the State of California, That the Legislative Budget Committee is hereby requested to prohibit the Legislative Auditor from divulging or disclosing any recommendations, alleged findings, or anything which in any manner pertains to the Budget of the State or the operation of any state agency, department, institution, or any other body at any time or place other than as directed by the Legislature Budget Committee, the Senate Finance Committee, or the Assembly Ways and Means Committee, or at a regular meeting of any legislative committee which has requested him to appear and testify.

WHEREAS, Andy Jacobson was elected in 1929 to the board of the trustees of the Pacific Grove Unified School Board, and in 1932 to membership in the Monterey County Board of Supervisors; and

WHEREAS, Andy Jacobson was a consistent protector of the public interest, battling unceasingly to keep taxes as low as possible without impairing necessary county services; and

WHEREAS, Andy Jacobson was a presiding officer of such dispatch, such tact and such fairness that the late Superior Court Judge Henry M. Jorgenson said "He is the finest presiding officer I know"; now, therefore, be it

Resolved, by the Senate of the State of California, That it deplores the passing of this fine public spirited citizen and extends its full measure of sympathy to the bereaved members of his family; and be it further

WHEREAS, These sections are located in remote areas of the parks to which access by the public is actually denied by park employees and thus there has been no interference whatsoever with the enjoyment of the parks; and

WHEREAS, These grazing concessions have materially benefited all concerned, since the commission derives revenues from the leases and, in addition, the cattle by grazing on the grass have greatly reduced the hazard of grass fires in these sections; and

"SECTION 1. Section 555 is added to the Streets and Highways Code, to read:

555. The California Highway Commission is authorized, if it finds the same to be for the best interest of the State, to construct a state highway from Route 1 near Garberville to a connection with existing Route 1 near Pepperwood, located so as to avoid the necessity of destroying any substantial number of redwood trees in state parks between said termini, and upon completion of construction, to designate such new highway as a portion of Route 1 in lieu of the existing Route 1 between said termini.

The Legislature hereby finds and declares that it is in the best interest of the State of California that the groves of virgin redwood trees in this area should be preserved and protected for the enjoyment and education of future generations. The redwood groves of California are unique in the world, and their unnecessary destruction would be a tragic loss. While one purpose of the relocation of the state highway described in this section is to improve the transportation facilities of the State, the primary purpose of the relocation is to avoid the necessity of destroying any substantial numbers of redwood trees in the state parks or in any other property in that area and to relieve the existing roads through the state parks of a heavy burden of traffic and thus make such roads available for the convenience of visitors to the parks. The Legislature, therefore, further finds and declares that the construction of the highway described in this section is for park purposes.

SEC. 2. Section 1 of Chapter 1639 of the Statutes of 1953 is amended to read:

[can be purchased at a reasonable price, to be determined by appraisal and negotiation or by condemnation proceedings, said land situate, lying and being between the extension of Los Patos Avenue, at the southerly terminus of Sunset Beach and

the northerly city limits of Huntington Beach and between the ordinary high tide of the Pacific Ocean and State Highway No. 101, Alternate, excepting therefrom an easement for railroad purposes as said railroad now exists. This appropriation shall be expended in the acquisition of aforesaid property and shall not be matched by like amounts or any amounts, in money, property or lands received from private or any other sources.]

SEC. 3. Section 5038 is added to the Public Resources Code, to read:

The recent large influx of population into California has taxed the existing recreational and park facilities of the State to the utmost. During the coming summer and autumn millions of people will use the presently inadequate facilities, and many serious threats to the health and safety of the people of California will result. It is necessary that there be furnished, as soon as possible, many more recreational, park, beach, sanitary, parking and other facilities, for which this act would provide. It is, therefore, necessary that this act take effect immediately in order that such facilities will be available early in 1955 in order to prevent serious health and safety problems."

(a) "Industry member" includes any person, firm, corporation, association, or organization engaged in the business of taking and selling photographs of human beings.
(b) "Industry products" includes photographs, whether in black and white or in color, duplicates, enlargements, and reductions of such photographs, and also frames and accessories for such photographs when sold in combination therewith; except that motion pictures or photographs which are to be used primarily or exclusively in theater exhibition or television broadcasting, or for appearance in newspapers, magazines, books, or some form of commercial advertisement, are not to be considered as industry products, and persons, firms, corporations, and organizations engaged exclusively in taking or selling such photographs or pictures are not to be considered as industry members.

17801. In connection with the sale, offering for sale, or distribution of industry products, it is unlawful for any industry member to make any representation concerning the size, quality, kind of finish, workmanship, or price, of any industry product, or concerning the experience or competency of the industry member or his employees in the taking or processing of photographs or concerning the equipment and facilities used by the industry member in the taking or processing of photographs which has the capacity and tendency or effect of deceiving purchasers or prospective purchasers. The prohibitions of this section are applicable to any and all advertising or sales promotional presentations of an industry member, whether appearing in a newspaper or other periodical, in a radio or television broadcast, in a telephone directory listing, as a statement or mark on a photograph or on the frame or wrapping thereof, or otherwise. Such prohibitions also apply to any verbal representation made by an industry member or his employee or agent.

17802. In the sale, offering for sale, or distribution of industry products, it is unlawful for any industry member to deceive purchasers or prospective purchasers as to the nature, type, extent, or volume of his business. Among the practices to be regarded as prohibited by this section is that of an industry member using a corporate or trade name:

17803. In the sale, offering for sale, or distribution of industry products, it is unlawful for any member of the industry to make, or cause to be made, any statement or representation which has the capacity and tendency or effect of deceiving customers or prospective customers with respect to the size or reputation of his business, or as to his business status or affiliation, or as to the training, skill, or reputation of himself or any of his employees. (b) Making or causing to be made any false or misleading representation with respect to the skill, reputation, or training of photographers, as for example, the use of such term as "noted photographer of children" as descriptive of the fitness or ability of a photographer to photograph children when in fact such photographer has not acquired a reputation for the taking of children's pictures.

17805. It is unlawful to make, or cause to be made, any false, misleading, or deceptive statements as to the quality and type of finish or photographic prints being offered. Among the types of statements prohibited by this section are:

(a) Using the terms "oil painting," "portrait painting," or any other word or term of similar import, as a designation for, or descriptive of, a tinted or colored photograph or picture made from a photographic base, except that nothing in this subdivision should be construed as prohibiting the use of such terms as "oil painted photograph" or "oil colored portrait photograph" as descriptive of a product made from a photographic base and colored in oil.

(b) Using the term "gold-tone," or any other word or term of similar import or meaning, either alone or in combination with other words or terms, to designate, describe, or refer to a photographic reproduction which is not a product resulting from a finishing process involving the use of a toning or developing bath employing salts or chloride of gold.

(e) Using the word "silk," or any term containing the word "silk," in any way to describe or refer to pictures which are not in fact printed on silk; or to make any other misleading, false, or deceptive statements as to the material upon which the photograph or other photographic product is printed.

17806. It is unlawful to represent or imply that any photograph or miniature, or any other photographic product, has been included in, or made a part of, an exhibit or an exhibition of photographs when such is not the fact, or to represent that any such photograph or photographic product will be exhibited or made a part of an exhibition when it is not contemplated or intended that such products will be exhibited or made a part of an exhibition.

17807. It is unlawful to make, or cause to be made, directly or by implication, through advertising of any kind, or otherwise, any false, misleading, or deceptive statement as to "contests" of any type or description. Among the practices prohibited by this section are:

(a) Representing or implying that a specified sum of money or monetary amount in awards will be made to winners in a contest unless the specified sum or amount in awards is made in cash.

(b) Failing to disclose in the advertising of any contest the conditions and requirements which govern the selection of contest winners, including the extent to which such selection is controlled or influenced by the purchase of advertiser's merchandise.

(c) Representing, directly or by implication, that awards in a specified number or value will be made in any contest unless such awards are actually conferred.

17808. It is unlawful to make, or cause to be made, directly or by implication, in advertising or otherwise, any false, misleading, or deceptive statements with

regard to subject matter carried on so called "coupons." Included in the scope of this section are statements referring to "limited" dates, when there is, in fact, no limit; "one per family" limitations, when, in fact, there are no such limitations; and failing to disclose on such coupons that additional purchases of any type are a prerequisite to receiving the offer made on the coupon itself, if in fact such a prerequisite is imposed.

17809. It is unlawful to use the word "free," or any other word or term of similar import or meaning, to designate, describe, or refer to any article of merchandise which is not in fact a gift or gratuity or which is not given without requiring the purchase of other merchandise or the performance of some service inuring, directly or indirectly, to the benefit of the donor of such alleged gift.

17810. It is unlawful to represent, directly or indirectly, that photographs sold in the regular course of business at the usual and customary prices therefor are, or will be, sold only to a limited number of customers, or to "a few lucky persons," or to indicate that the recipient of such offer "has been selected," or to represent in any manner that the purchaser is receiving an advantage in price or other consideration not ordinarily available.

17811. (a) It is unlawful to use any guarantee respecting a photograph or other industry product which does not make reasonable disclosure of the conditions or limitations of such guarantee, or which contains statements, representation, or assertions which have the capacity and tendency or effect of misleading or deceiving in any respect, or which are of such form, text, or character as to represent or imply that the guarantee is broader than is in fact true.

(b) It is unlawful for the guarantor to fail to observe scrupulously his obligation under the guarantee by him used or caused to be used.

The provisions of this section shall be applicable also to warranties or any writing purported to be a guarantee or warranty.

17812. It is unlawful deceptively to conceal from or fail to disclose to customers at the time photographs are ordered that the finished picture, when delivered, will be so shaped and designed that it can only be used in a specially designed, odd-style frame which can only be purchased from the producer of the photographs or which is not generally available on the open market or that segment of the market open and convenient to the customer.

17813. It is unlawful to exhibit to prospective customers as samples of work any photographs or pictures which are not in fact representative of pictures produced and sold by the exhibitor of such samples, or to represent, directly or by implication, that a photograph to be made and delivered will be equal in type, quality, and workmanship to the samples displayed to the customer, unless the picture delivered is, in fact, equal in type, quality, and workmanship to such samples.

17814. (a) It is unlawful for any member of the industry to represent or imply that an industry product may be purchased for a specified price when such is not the fact, or to represent or imply that an industry product is being offered for sale at a reduced price or special price saving when the claimed reduced price or saving is not based on the bona fide usual and customary selling price of the product in effect immediately prior in point of time to such representation, or otherwise to represent the prices or terms of sale of industry products in such manner having the capacity and tendency or effect of misleading or deceiving purchasers of prospective purchasers.

(b) It is unlawful to sell or offer for sale any industry product at a price less than the cost thereof to the seller as a "loss leader" used in inducing, and sold only in combination with, the purchase of other merchandise on which the seller recoups such loss, when this practice has the capacity and tendency or effect of misleading or deceiving the purchasing public.

17815. It is unlawful for any member of the industry:

(a) To imitate or cause to be imitated, or directly or indirectly promote the imitation of, the trade-marks, trade names, or other exclusively owned symbols or marks of identification of competitors in a manner having the capacity and tendency or effect of misleading or deceiving purchasers, prospective purchasers, or the buying public; or

(b) To use any trade name, corporate name, trade-mark, or other trade designation which has the capacity and tendency or effect of misleading or deceiving purchasers or prospective purchasers as to the character, name, nature, or origin of any product of the industry, or of any material used therein, or which is false or misleading in any material respect.

17816. The offering or giving of prizes, premiums, or gifts in connection with the sale or offering for sale of industry products, or as an inducement thereto, by means of a game of chance or lottery scheme, is an unfair trade practice. Among the practices prohibited by this section are the use of a "draw," "draw contest," or so-called "lucky" blank or any other lottery scheme or game of chance to promote the sale of industry products.

17817. It is unlawful to defame competitors by falsely imputing to them dishonorable conduct, inability to perform contracts, questionable credit standing, or by other false representations, or falsely to disparage competitors' photography in any

respect, or their business methods, selling prices, values, credit terms, policies, or services.

17818. The practice of selling products of the industry at a price less than the cost thereof to the seller, with the intent or purpose, and where the effect may be, to injure, suppress, or stifle competition or tend to create a monopoly in the production or sale of such products, is unlawful.

As used in this section the term "cost" means the total cost to the seller, including the costs of acquisition, processing, preparation for marketing, sale, and delivery. All elements recognized by good accounting practice as proper elements of such cost shall be included in determining cost under this section. The costs referred to in the section are actual costs of the respective seller and not some other figure or average costs in the industry determined by an industry cost survey or otherwise.

This section is not to be construed as prohibiting all sales below cost, but only such selling below the seller's cost as is resorted to and pursued with the wrongful intent or purpose referred to and where the effect may be to injure, destroy, or prevent competition, or tend to create a monopoly.

17819. It is unlawful for any person, firm, or corporation to aid, abet, coerce, or induce another, directly or indirectly, to use or promote the use of any unfair trade practice specified in this chapter.

17820. Any person, firm, corporation, partnership or association engaged in the business of taking and selling photographs or any employee or agent thereof who violates the provisions of this chapter is guilty of a misdemeanor.

17821. Any person, corporation, firm, partnership, joint stock company, or any other association or organization engaged in the business of taking and selling photographs which violates or proposes to violate the provisions of this chapter may be enjoined by any court of competent jurisdiction.

Actions for injunction under this section may be prosecuted by the Attorney General or district attorney in this State in the name of the people of the State of California upon their own complaint or upon the complaint of any board, officer, person, corporation or association or by any person acting for the interests of itself, its members or the general public."

The lesser retirement allowance payable under an optional settlement elected at retirement, pursuant to Article 4 of Chapter 9 of the State Employees Retirement Law, shall be actuarially equivalent to the retirement allowance that would have been payable at retirement had no optional settlement been elected after taking into consideration the reduction in said allowance provided for in Section

21630. Upon the election of an optional settlement by a member who has not attained the federal retirement age, the board shall estimate the apportioned federal benefit upon the basis of information then available to it. If the death of such a member should occur before he has attained the federal retirement age, payments under the optional settlement elected shall be as thus estimated. If such a member attains the federal retirement age, the board shall then recalculate the lesser retirement allowance payable under the optional settlement upon the basis of the age of the member and the beneficiary on the effective date of retirement, actuarial tables then in use, and the apportioned federal benefit determined as provided in Section 21636. Payments of the recalculated amount shall be made beginning with the month in which the federal retirement age was attained and such payments shall be increased or decreased by the actuarial equivalent of any difference in payments previously made and such recalculated amount.

21638. Notwithstanding any other provision of this part, no member shall be paid an allowance from the State Employees Retirement Fund which is less than the life annuity that could be provided by the accummulated contributions with which he was credited on the effective date of his retirement, on the basis of actuarial tables in use by the board on such date.

21639. Notwithstanding the provisions of Sections 20332 and 20809 of the State Employees' Retirement Law, nothing in said law shall act to prohibit the receipt of credit in the state system, nor the payment of benefits relating thereto, for service which is also being credited in the federal system, and persons shall not be excluded from the state system as to such service as is being credited in the federal system.

21640. To the extent permitted by federal law or regulations, the board may file applications or other documents with the federal system relating to members of the State Retirement System, and receive information regarding the entitlement of such members under the federal system.

21641. The board may require a member to provide evidence of his entitlement to federal benefits, and may estimate the apportioned federal benefit and date of first entitlement in computing a member's allowance, which computation may be adjusted pending a final determination by the board; provided, that a final determination shall not thereafter be subject to adjustment except as otherwise provided in this part.

CHAPTER 3. CONTRIBUTIONS

Article 1. Procedure

Every member shall continue to contribute to the State Employees' Retirement Fund the normal contributions required of such member under the State Employees' Retirement Law less (a) an amount each month equal to the federal rate of contributions times the monthly wages subject to normal retirement contributions but not in excess of one-twelfth of the maximum annual wages subject to contributions under the federal system in each calendar year or (b) the amount, as computed in a manner approved by the board, the State Controller and the Director of Finance, required for employee federal contributions with respect to those wages subject to normal retirement contributions.

21661. Every employee covered by the agreement providing coverage under the federal system for such employee shall be liable for the employee federal contributions.

Article 3. Employer Contributions

21670. On the execution date of the agreement which includes the state miscellaneous, narcotic and law enforcement members, if such date is the first day of the month, and if not, on the first day of the first month next succeeding such execution date, the State's contribution to the State Employees' Retirement Fund in respect to such members as provided by Chapter 6 of the State Employees' Retirement Law shall be reduced by a sum equal to 3 percent of the compensation paid such members who are included in such agreement.

On the execution date of any agreement which includes either the state warden members or the state forestry members, or both, if such date is the first day of the month, and if not, on the first day of the first month next succeeding such execution date, the State's contribution to the State Employees' Retirement Fund with respect to any such members who are included in such agreement shall be reduced by a sum equal to 2.30 percent of the compensation paid to such members.

21671. (a) The General Fund.

(b) Funds of or funds appropriated to the University.

(c) The Vocational Education Fund, the Vocational Rehabilitation Fund, or any other fund received, in whole or in part, as a donation to the State under restrictions preventing its use for the payment of employer federal contributions.

(d) Moneys in the Water Resources Revolving Fund, where such moneys were derived from an appropriation from the General Fund.

(e) The Senate Contingent Fund or the Assembly Contingent Fund.

21672. From each other fund in the State Treasury there shall be transferred from time to time to the Old Age and Survivors Insurance Fund the amount of employer federal contributions for those state employees covered by the agreement whose compensation is paid from that fund and in respect to which compensation the employer's federal contribution is not required to be made from the General Fund.

21673. The board shall certify to the Controller from time to time the total amount of employer federal contributions required to meet the obligations of the State under the federal system with respect to wages paid to state and university employees, excluding employees in positions covered by the Pension and Retiring Annuities System of the University of California or the State Teachers Retirement System, and payable from the General and each other fund in the State Treasury, and the Controller shall thereupon transfer such employer federal contributions from each such fund, respectively, to the Old Age and Survivors Insurance Revolving Fund.

21674. There is hereby appropriated the amount necessary from the funds designated, to provide, (a) the payments required by this article to be made by the State to the Old Age and Survivors Insurance Revolving Fund, which payments are declared to be continuing obligations of the State, (b) the amounts payable pursuant to Articles 4 and 5 of this chapter, and (c) in addition thereto the sum of three hundred fifty thousand dollars ($350,000) from the General Fund to the Department of Finance for the purpose of administering the provisions of Parts 3.5 and 4 of Division 5 of Title 2 of this code, to be allocated by the Director of Finance in such amounts as he may determine in augmentation of the support appropriations of the University of California, the State Controller and the Board of Administration of the State Employees' Retirement System made by the Budget Acts of 1954 and 1955; provided, however, that the Director of Finance may return to this portion of the appropriation by executive order any sum thus allocated and may reallocate such sums as herein provided and amounts thus allocated or reallocated shall, for accounting purposes, be deemed to be augmentations and increases of the support appropriations of the agencies and for the fiscal years herein specified.

Article 4. Retroactive Employee Federal Contributions

21680. Employee federal contributions required of state and university employees, excluding employees who are in positions covered by the Pension and Retiring Annuities System of the University of California or the State Teachers Retirement System, with respect to salaries and wages paid for services rendered after the effective date of coverage of such employees under the federal system and prior to the time employee federal contributions are first deducted from the salaries and wages of such employees, shall be paid from the State Employees' Retirement Fund to the Old Age and Survivors Insurance Revolving Fund. Such employee federal contributions shall be charged in the accounts of the state system to the State's accumulated contributions for current service and shall be regarded as a loan to each such employee and shall be a lien on any salaries or wages payable to the employee and on any amounts payable by the state system to the employee or on his account. Said loan shall be repaid by the employee as follows:

(a) Such employee federal contributions with respect to employees who were members of the state system during the period extending from the effective date of coverage until the time employee federal contributions are first deducted from the salaries and wages of such employees shall be deducted from the member's accumulated contributions made with respect to services performed during the said period and which are to his credit in the state system, to the extent that such contributions are in excess of what they would have been had the contributions to the state system during the said period been made as provided in Section 21660, disregarding interest; provided, however, that for any employee who was a member of the state system on the effective date of coverage, all such employee federal contributions shall be deducted from such accumulated retirement contributions of the employee.

(b) Such employee federal contributions are not deductible from members' accumulated contributions in the state system as provided in subdivision (a) of this section shall be repaid by the employee by one cash payment to the state system

or by pay roll deductions during current employment or any subsequent employment of such employee extending over a period determined by the board and subject to minimum payments as determined by the board, under a plan approved by the State Controller. The agency making such pay roll deductions shall remit to the board monthly all amounts so withheld and shall file with the board appropriate information relating thereto. All such repayments shall be remitted by the board to the State Employees' Retirement Fund and shall be credited in the accounts of the state system to the account to which the loan was charged.

21681. The board shall certify to the State Controller the total amount of employee federal contributions required for retroactive coverage under the federal system and the Controller shall thereupon transfer such amount from the State Employees' Retirement Fund to the Old Age and Survivors Insurance Revolving Fund.

21690. Employer federal contributions required with respect to salaries and wages paid on or before the execution date of the modification of the agreement set forth in Section 22210 of this code for services rendered after the effective date of coverage of public agency employees or state and university employees, excluding employees who are in positions covered by the Pension and Retiring Annuities System of the University of California or the State Teachers' Retirement System, shall be paid from the State Employees' Retirement Fund to the Old Age and Survivors Insurance Revolving Fund and shall be charged in the accounts of the state system to the State's or the public agency's accumulated contributions for current service, as the case may be.

21691. The board shall certify to the State Controller the total amount of employer federal contributions required for retroactive coverage under the federal system and the Controller shall thereupon transfer such amount from the State Employees' Retirement Fund to the Old Age and Survivors Insurance Revolving Fund.

CHAPTER 4. CONTRACT MEMBERS

21700. Except as hereinafter provided in this chapter, the provisions of this part do not apply to any public agency under contract with the board, as provided by the State Employees' Retirement Law, nor to the employees of such an agency with respect to services rendered as an employee of the agency. Notwithstanding the provisions of Chapter 4.5 of said Retirement Law, the provisions of this part do not apply to contracts made under that law with any county superintendent of schools nor to persons who are members of the state system on account thereof, except as hereinafter provided in this chapter.

21702. With the approval of the board, any contract made under the provisions of the State Employees' Retirement Law between the board and a public agency may be amended to provide a modification of the benefits to be paid under said contract, and to provide an adjustment in contributions made, or to be made, by employees to the state system, if the agreement executed by the board pursuant to Section 218 of Title II of the Social Security Act is simultaneously modified to include in the federal system the employees of the agency in positions covered by the state system. The amendment to such contracts as are subject to the provisions of Sections 21251.1 and 21253 of said Retirement Law, shall provide a modification of benefits and employee contributions under the contract like that provided in Chapters 2 and 3 of this part for the State and its employees. As may be agreed upon by the board and the public agency, a contract which is not subject to said sections may be amended to provide a modification of benefits to be payable under the contract and an adjustment of the contributions made, or to be made, by employees to the state system, provided the agreement executed by the board pursuant to Section 218 of Title II of the Social Security Act is simultaneously modified to include in the federal system the employees of the agency in positions covered by the state system.

The amendment to the contract shall be made in the manner prescribed in the State Employees' Retirement Law for the approval of contracts.

21704. The referendum referred to in Section 22301 of this code with respect to county superintendent of schools is hereby authorized. When a majority of the eligible employees in positions covered by the state system under the contract between the board, and a county superintendent, as provided in Chapter 4.5 of the State Employees' Retirement Law, have voted in favor of inclusion in the federal system, the county superintendent may make formal application to the board for the inclusion of such employees in the agreement in accordance with Part 4 of this division. The contract between the board and the county superintendent of schools shall be amended effective upon such inclusion to provide a modification of the benefits and contributions like that provided in Chapters 2 and 3 of this part for the State and its employees. The amendment to this contract shall be made in the manner prescribed in the State Employees' Retirement Law for the approval of contracts.

21706. If the effective date of coverage under the federal system of the employees of a public agency under contract with the board of the state system is effective prior to the time employee federal contributions are first deducted from the salaries and wages of such employees, said contract with the board may be amended to provide for the payment of retroactive employee and employer federal contributions

from the accounts of the employee or the public agency, as the case may be, in the State Employees' Retirement System in the same manner as provided in Articles 4 and 5 of this part for the State and its employees.

21708. Contracts made by the board with a public agency after this part takes effect, may provide a modification, as may be agreed upon by the board and the agency, of the benefits provided under the State Employees' Retirement Law and adjusted employee contributions to be paid under said law if the employees of the agency are covered by the federal system or are to be so covered on the effective date of the contract.

SEC. 2. Section 16395 of the Government Code is amended to read:

16395. For the purpose of determining the fund or funds from which the State's contributions to the State Employees' Retirement Fund under Chapter 6 of Part 3 of Division 5 of Title 2 of this code and the contributions required of an employer under Chapter 3 of Part 3.5 of Division 5 of Title 2 of this code shall be paid, any compensation paid to state officers and employees from the State Pay Roll Revolving Fund shall be deemed to have been paid from the fund or funds from which the money disbursed from the State Pay Roll Revolving Fund in payment of such compensation was originally derived.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Sweeping changes have been made in the Social Security Act during 1954, providing, among other matters, that public agencies in this State with retirement systems may now be covered by the Old Age and Survivors' Insurance System of the Federal Government. In order that employees of the State and other public employees under the State Employees' Retirement System may be so covered without jeopardizing the continued maintenance of their state system it is necessary that provisions be made for the integration of the two systems."
